SUMADI™

Smart online exam proctoring

Why SUMADI?

SUMADI is the leading AI-powered exam proctoring platform that protects academic reputation and integrity, allowing institutions to evaluate with confidence anywhere in the world.

Advanced security: Sumadi is powered by AI to guarantee the integrity of online exams.

Scalability: Offers different versions to fit the supervision needs of each institution.

GDPR compliance and international standards.

Which Sumadi solution choose based on your evaluation type?

Not all evaluations require the same level of proctoring. SUMADI adapts to each scenario based on the exam's criticality and type.

Exam type	**Asynchronous exams** Automated monitoring with artificial intelligence and detailed post-exam reports	**Synchronous exams** Active real-time proctoring with immediate alerts and human validation
Criticality	**Standard** Formative or diagnostic evaluations that prioritize user experience, scalability, and post- exam review based on evidence	**High** High-stakes evaluations whose results have direct consequences on the academic or professional path. They require maximum security, zero tolerance for irregularities, and real-time forensic evidence.

Solution	**ELEMENTUM** Guarantees a secure and controlled environment for virtual exams through a secure browser and unauthorized application blocking	**SPARK** Automated, efficient, rigorous proctoring. Thanks to the power of AI and a variety of modular functionalities, suspicious behaviors can be identified in real time	**LUMINOUS** The most advanced solution that enables continuous recording of the examinee. With the full range of features, Luminous guarantees the integrity of the evaluation

Modality	Secure Browser – Web Extension – Mobile
