

Ensure integrity and quality in your online assessments

SUMADI is the leading AI-powered online exam proctoring platform, offering automated and secure solutions. With advanced technology in facial recognition, ID authentication and secure browser, we ensure the highest integrity in online assessments.

Get to know Sumadi's features

We know that not all exams require the same level of proctoring, here you can check all the available functions

Ensure a secure online environment for taking exams

Secure Browser

that does not allow the examinee to exit without completing the exam.

Blocked App

Blocks unauthorized applications and typing commands during the exam.

Communication Skills

Provides an instant communication channel between the supervisor and the examinee.

ID Scan

Facilitates authentication of the examinee by scanning ID documents.

Double Camera

Increase visibility of the examinee room, extending to the fourth dimension of the examinee.

Receive alerts for suspicious behavior

Object Detection

Scans the examinee's environment to identify unauthorized objects.

Facial Recognition

Analyzes the examinee's facial features and compares them with the facial profile recorded throughout the exam.

Sumadi Score

Customize thresholds and set tolerance for unwanted behavior.

Intelligent Voice and Sound Detection

Capture and monitor ambient sound during the exam.

Face Absence Detection

If the camera does not detect a face during an online exam, the system automatically generates an alert.

NEW

Generate evidence of suspicious behavior

Voice and audio recording

Capture audio evidence identified during the exam.

Screenshots

Take periodic screenshots of the user's screen.

Webcam captures

Monitor the examinee in real time via webcam.

Webcam captures

Monitor the examinee room in real time via webcam.

Video recording

Continuous recording of the video being examined, for later review if necessary.

Other features

White label

It offers the possibility of personalizing the platform according to the institution's brand book.

Sumadi Mobile Browser

It allows students to take the assessments from mobile devices with the highest security standards.

NEW
